 Ada 2.0 – what's next

# Accelerating Growth in Technology

(condensed)

## Number of Students Taking A-Level Computing and ICT Modules, 2001-13

- **GCSE B** : *'The increase in students sitting GCSE CS slowed between 2016 and 2017 ... and it looks likely that fewer students will be sitting a computing GCSE over the next few years due to the removal of ICT GCSE'*
- **A-Level** : *'The picture at A-level is better, with a sustained increase in student numbers over the last 4 years, albeit with still very small numbers (7215 students in 2017)'*
- **Volumes** : *'However, cohort sizes remain small, with a mean of 6.7 students per provider and a median of just 5.'*
- **Gender Parity** : *'Girls continue to be heavily underrepresented in computer science. At GCSE, 20% of entries are from female students (1 in 5) and only 10% (1 in 10) at A-level, even though girls do better than boys at GCSE.'*
- **Low-income students** : *'Compared to ICT, a lower proportion of pupil premium students study GCSE and*

**schools don't offer  
Computer Science  
at GCSE**

# MOVING ON UP

## A BCS analysis of social mobility in IT

*'A young person from a less advantaged background will find a career path more open to them in IT than some of the longer-established professions.'*

### Key findings:

- IT as a profession offers more social mobility than medicine and law
- IT offers comparable social mobility to the business and accountancy professions
- IT offers more routes to entry and a far lower cost for obtaining qualifications and skills than medicine and law
- 75% of those in the IT profession have experienced upward social mobility compared to their parents social class
- 80% of IT project/programme managers have experienced a higher grading of social mobility than their parents
- 18% of IT professionals have experienced 'long-range social mobility'

**EDUCATION**

**INDUSTRY**

**EDUCATION + INDUSTRY**

## OUR VISION

**An education system that provides a sustainable pipeline of high quality diverse digital talent to the tech industry**

## OUR MISSION

**To work with industry to design and deliver an education that empowers all our students, especially women and those from low-income backgrounds, to progress into highly skilled digital roles and lead flourishing lives**

# AREAS OF FOCUS

---

**Become a  
Centre of  
Excellence**

**Become an  
Engine for  
Social Mobility**

**Become a  
Bridge  
between  
Education and  
Employment**

# Higher Level & Degree Apprenticeships

“In the post-war period, the number of good white collar-jobs grew faster than the size of the middle class workforce and this enabled working-class students to obtain middle-class jobs. This is no longer happening.”

Barnaby Lennon, 'Other People's Children', 2018

How do you prepare students interested in tech to succeed in the workforce from day 1?

National  
College for  
Digital  
Skills

The logo for 'ada' is displayed in a white, lowercase, sans-serif font on a black background.The logo for the National College for Digital Skills features a yellow circle on a purple square background, with the text 'National College for Digital Skills' in white to its right.

# WHAT SETS US APART?

High quality teaching and learning

Strong social mission

Meaningful industry involvement in classroom delivery

Specialist 16-19 cohort interested in Apprenticeships

A photograph of a laptop with several colorful stickers on its lid. The stickers include the Adafruit logo, a character with a flame, a character with a red hat, a character with a black hood, and a character with a blue hat. The text "National College for Digital Skills" is visible on one of the stickers. In the foreground, a Raspberry Pi board is connected to a power supply and other components. The image is overlaid with a large green diagonal graphic that contains the text.

WHAT DOES  
THE FUTURE  
HOLD?

- Volume Growth
- Geographic Growth
- Teacher and Lecturer training
- Increased Partnerships & Outreach Work with Schools, Colleges and Universities
