The IoC-led Skills Bootcamps are training 1,500+ people in advanced digital skills

Hire from this new talent pipeline - cohorts are graduating late 2021 and early 2022

SKILLS BOOTCAMPS

Skills Bootcamps are flexible courses of up to 16 weeks that teach **advanced digital skills in a variety of areas**. They have been developed by the Government as part of the Plan for Jobs in partnership with employers, skills providers, and local authorities.

The Institute of Coding (IoC) has **partnered with prominent universities nationwide** to deliver **26 Skills Bootcamps** that prepare people for **entry or mid-level employment** in digital or tech roles.

Access this skilled talent pool

We are training diverse talent (44% women) and many participants (60%+) already have a degree or graduate degree.

Cohorts are **graduating between November 2021 and March 2022** and will be **looking for employment** at the completion of their Bootcamp.

Contact us - cohorts are graduating soon!

If you would like to learn more and hire from this skilled talent pool**,** please email **SkillsBootcamps@Deloitte.co.uk**.
